

Application No.: 09/972124

Case No.: 56764US002

 a third layer comprising a fluid transportable ink, the third layer being in contact with the second major surface of the second layer; and
an adhesive layer.

 7. (Amended) The adhesive article of claim 1 wherein the first layer defines a hole, and the second layer is thereby exposed to the air.

8. (Amended) The adhesive article of claim 1 wherein the first layer and the second layer define a hole, and the third layer is thereby exposed to the air.

9. (Amended) The adhesive article of claim 1 wherein the adhesive layer is in contact with the third layer.

 14. (Amended) The adhesive article of claim 1 wherein the first layer further comprises an adhesive.

15. (Amended) The adhesive article of claim 1 wherein the first layer further comprises a release coating.

 21. (Amended) A label comprising
a first layer comprising a transparent film, the first layer having a first major surface and a second major surface opposite the first major surface;
a second layer comprising a fluid transport substrate, the second layer having a first major surface and a second major surface opposite the first major surface, the first major surface of the second layer being in contact with the second major surface of the first layer;
a third layer comprising a fluid transportable ink, the third layer being in contact with the second major surface of the second layer;
an adhesive layer; and
a printed layer on the first major surface of the first layer.
